

Rip'n wud

HANDMADE SKIS
NATURAL · AUTHENTIC · TIMELESS

A PURE RIDE COMPANY

Rip'n Wud skis is a family owned, independent ski company born in Haute Savoie Mont-Blanc France. Rip'n Wud skis is dedicated to keep its strong Quality image that has been developed throughout the world of free skiing.

Our dedication and passion for skiing in the high alpine, is what motivates us in our designs, eco material research & development.

Today, Rip'n Wud skis has reached the forefront of the free skiing market as a durable, easy riding, yet high performance, top quality, eco friendly ski brand.

BACK TO NATURE

Rip'n Wud skis are built with 100% Eco grown, White ash, walnut & wild cherry wood from replanted forest. We produce all our ski models with the best Eco raw materials available then put into our production and produced by hand with sandwich laminated wood cores in full-length tip to tail, Rip'nWud "LAM Technology".

CONSTRUCTION LAYERING from top to bottom		Top surface Eco grown Walnut or Wild cherry wood
		Logos & Graphics Wood burning or Vegetable ink oil
		Treatment Pure organic linseed oil saturation
		Ski Cores Eco grown 100% White ash wood
		Side walls 100% Acacia Hard wood
		Resin Eco Non-toxic SuperSap
		Fiber Natural Basalt Rock fiber
		Running base Revolutionary no wax base by NIVYLEN
		Edge Stainless steel 2.8mm x 11mm

easy handling

All of our wood cores are precision hand shaped, tuned and balanced before entering the final press stage to ensure each of our skis have an equal and balanced flex from tip to tail for easy smooth handling on or off the piste.

PREMIUM COLLECTION

Rip'nWud is and always will be the benchmark of high performance, durable handmade eco wooden skis. Our premium collection was designed with one goal in mind, to give back to nature what nature has so generously given to us, by building skis that give skiers the

best sensation and the most long lasting durable skis available on the market today. Handmade from 5 different types of the highest quality ECO certified wood coming from replanted forest, our Premium collection is built with 100% white ash wood,

wild cherry wood, Acacia wood, AFC light wood, and American black walnut wood.

Rip'nWud has set a whole new standard in ski building from the beginning... Since 1997

A full-page background image showing a vibrant Aurora Borealis (Northern Lights) display in shades of green and purple against a starry night sky. The bottom of the image shows the dark silhouettes of trees and a snowy ground.

BOREALIS COLLECTION

Our New Borealis Collection has been inspired by our freeride expedition to the north pole where we explored the unknown, traveling under an incredible sky of unimaginable colors streaking the heavens above. A feeling of total freedom, lost in an untamed environ-

ment completely unplugged from society, and at the same time and moment, fully connected with its extreme nature and its elements. The Borealis collection offers an array of different colors and shapes to give the rider freedom of choice.

All Rip'nWud skis are Precision handmade to give the rider a sensational feeling, high performance, and stability he or she has been looking for.

SL CARVE PRO 71

BOREALIS
COLLECTION

WUD ROCKER 81

BOREALIS
COLLECTION

156 · 163 · 170 · 177 · 184cm | Piste 80% · Off Piste 20%

The WUD ROCKER 81 is our narrowest ski in the WUD ROCKER collection. Our WUD ROCKER offers skiers a great combination of grip when carving and versatility to ski on both groomed terrain and off the slopes. Our WUD ROCKER 81 model offers more of a "carving" orientation, with a slightly stiffer flex pattern and a smaller progressive rocker in the tip than our other WUD ROCKER models. Handmade sandwich construction, The Wud Rocker with 81mm under the boot will provide solid grip, great stability for skiing on or off the slopes.
